a smarter way to stream sports

It's simple

All you need is a video camera, internet and power. (You've probably got that on site already.) Schedule your broadcast and you're good to go. It's easy to use at all venues and, even better, no swat team is needed. Already have more a more sophisticated video setup? BoxCast can accommodate that, too.

It's a great way to keep score

Who watches sports without a scoreboard? Using our manual scoreboard, you can let fans know the score via our web interface. Or, integrate your existing score-board and get automatic score and time overlays.

It's pricing for your team

You can choose a revenue model that works for you. Offer your fans a fabulous viewing experience for free... give them the opportunity to upgrade to HD Flex plan (HD) for a nominal fee or use this as a revenue generation opportunity for your institution by ticket games or charge fans

And, because the video is embedded on your site, it's trusted for all levels of sport from youth to high school to college to professional sports. Protect your brand; no embarrassing ads.

The fastest growing sports video platform in the world

Sports fans love the awesome HD video quality of BoxCast. Sports programs love that BoxCast automates everything... just plug in your camera and scoreboard!

You've already got a camera at the game. Let's get started today.
